for some
instruments

level 0

‘raw’ data

15-year
record

level 3

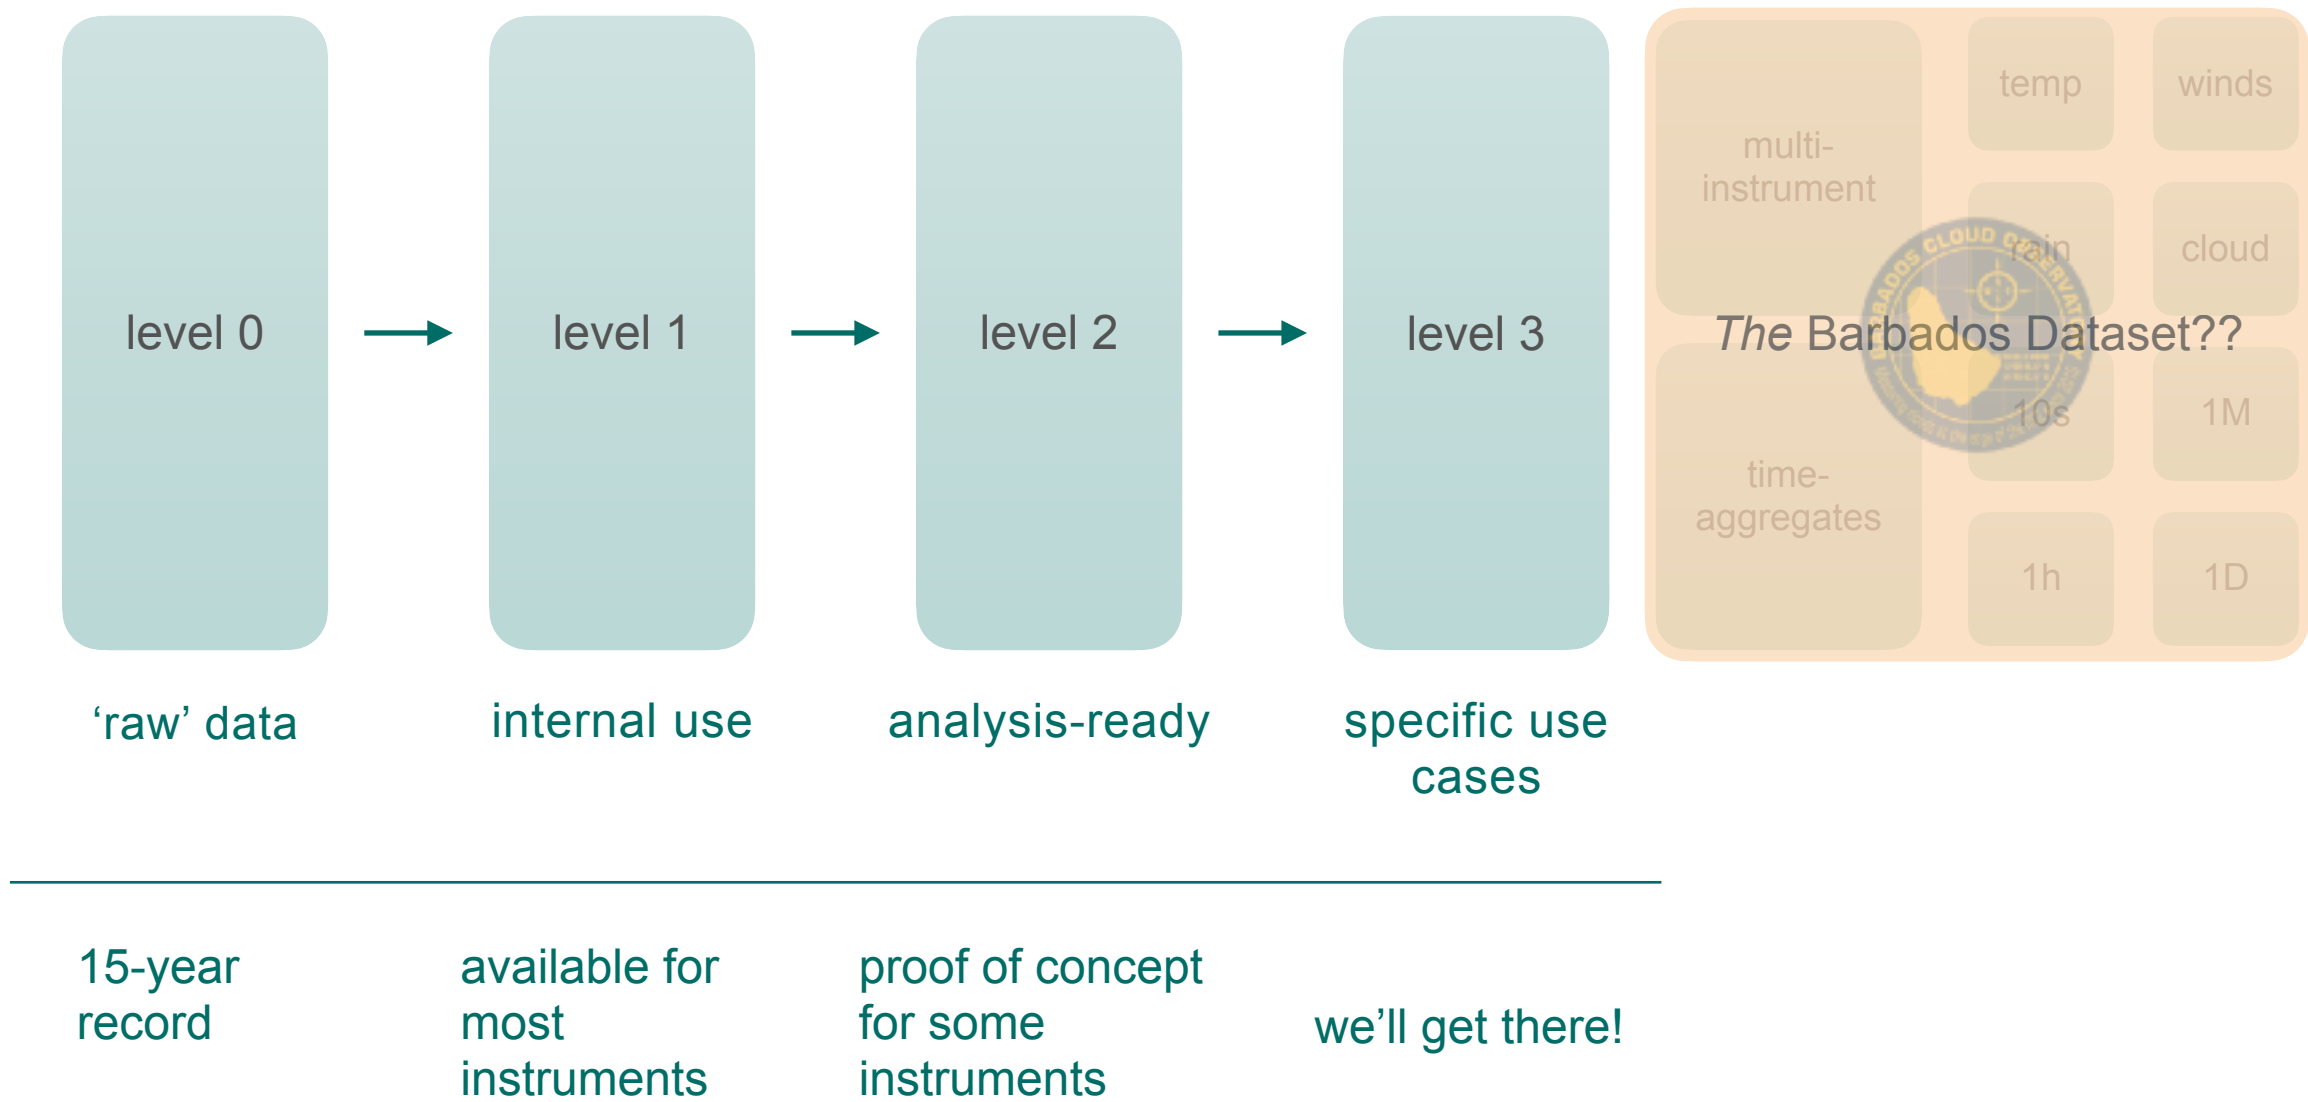

specific use
cases

we'll get there!

The Barbados Dataset??

BCO Level 3 Tropical Paradise (where we're going)

What it looks like in practice:

```
import intake  
cat = intake.open_catalog("https://tcodata.mpimet.mpg.de/catalog.yaml")  
cat.BC0.surfacemet_wxt_v1.to_dask().T.resample(time='1ME').mean().plot()
```
